“Play is far more powerful for children, than many parents realize. It’s actually the key to learning. Researchers and educators across the world have found that play can help enrich learning and develop key skills such as inquiry, expression, experimentation, and teamwork.”

Trinity Learning Academy

Our Vision Statement

Our vision is to use play based learning to help build confident learners.

Our Mission Statement

Our mission is to provide a learning environment that will enable children to learn on their own explorations and give them the opportunities to explore the world around them.

We provide student-center care with an emphasis on social-emotional learning. We incorporate Christian based principals. We foster curiosity and develop a love for life-long learning.

Our Teacher:

Ms. Angela Younkin has her Early Childhood degree and loves working with children. Her goal is to provide a loving, safe, and nurturing environment for all students that enter her room. She is able to develop lessons from child observation, questions, and overall interest that the children share.

It takes a big
heart
to help shape
little
minds.
